## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 28, 30-35, and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Nied (US 4,514,612).

Nied disclose a composite resistance spot welding electrode comprising a conductive inner portion, an outer sleeve portion comprising, a right cylinder having an annular surface, the end surface being orthogonal to a wall of the cylinder, which end surface cooperates with the inner portion end surface to form a continuous face therewith. The electrodes are to compress the workpieces and passing electric currents through the first and second electrodes (figures and col. 2, line 57 – col. 3, line 10).

### ***Allowable Subject Matter***

3. Claims 1-27 are allowed.

4. Claims 36 and 38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
